

MEMORANDUM

TO: Tom Johnston, Purchasing Manager

FROM: Todd Renshaw, Chief of Police

SUBJ: Photo Enforcement Contract with ATS

DATE: March 29, 2010

This memo is to request a contract between American Traffic Solutions and the City of Frisco for management of photographic red light enforcement within the City of Frisco. Police staff has reviewed this proposed contract and agree that using the services provided by American Traffic Solutions will best benefit the citizens of Frisco. In addition to Police staff reviewing the contract, the Frisco Red Light Camera Citizen Advisory Committee previously reviewed the two vendors vying for selection and supported going with the services of ATS.

The police department has used photo red light enforcement previously and has seen the benefits that it can provide to the citizens of Frisco. These benefits include a reduction in traffic crashes at selected intersections and a significant impact on driver behavior. By entering into this agreement with ATS it will allow the police department to deploy another resource in making intersections safer.
